

Good Afternoon Parents and Guardians,

As your child's year comes to a close, I want to communicate with you about this year's summer learning. The format is the same as last summer and is voluntary; however, if your 9th grade child has not completed his/her first math credit, and/or your 10th or 11th grade child have not completed their second math credit it is strongly recommended that he/she take advantage of the summer learning hours. This will put your child in a better position to complete the math graduation requirement of 3 credits.

Summer learning hours are provided by members of our faculty on the following dates from 8am to 12pm:

July 10, 11, 12, 17, 18, 19, 24, 25, 26, 31 August 1, 2, 7, 8, 9, 14, 15, 16

Like last year, students are not required to attend all four hours or every session; they can come in when they need help or are ready for a knowledge check or DSA. If you have any questions, I will be available by email until June 20th at 2:45pm. I sporadically check my email during the summer, but may not reply back for some time.

Have a great summer!

Gilda Puccio
